### WARNING

- Keep button batteries out of reach of children. Never allow children to replace button batteries of any device.
- Swallowing may lead to serious or fatal injury in as little as 2 hours, due to chemical burns and potential perforation of the oesophagus.
- If you suspect your child has swallowed or inserted a button battery, immediately call or take them for emergency medical help.

#### Advice about the safe disposal of button/coin batteries

- Dispose of used button/coin batteries immediately.
- Place sticky tape around both sides of the battery and dispose of it immediately in an outside bin, out of reach of children, or recycle safely.
